Quality Flooring

Laminate Floor

2016

Editorial

Company management in
the fourth and fifth generations:
Peter Hamberger and
Dr. Peter M. Hamberger

Welcome to HARO

For 150 years, processing wood has been our passion. Our innovations and the dedication to quality have made us one of the most prestigious manufacturers of floor coverings in Europe. In addition to our parquet floors, it is also our laminate floors that continue our success story. Here, we can use our full expertise from the manufacturing of wood, which is why we know exactly what authentic and natural laminate styles should look like. Laminate floors combine the best of two worlds: Natural styles that are almost indistinguishable from wood and a technical construction that makes the floors particularly hard-wearing. You will be stunned by the variety of our product range. Let yourself be inspired by the world's quietest laminate floor and the most beautiful wood styles for your home or commercial use.

The Company

Our home for 150 years.

Consistent quality

150 years ago, with a match factory, a sawmill and a brickyard, Franz Paul Hamberger laid the foundation for what is today the globally acting family-run company Hamberger Industriewerke. Tradition and innovation, regional ties and global success, as well as reliability and flexibility, are factors that have always determined the entrepreneurial acting of our company. Even today, the sought-after laminate and parquet floors activities from the HARO brand are still being produced at the company's headquarters in Stephanskirchen. Our quality products are Made in Germany. This way we can guarantee the highest possible level of sustainability, among other things because of our certified manufacturing processes. For the protection of our environment and a healthy home.

Laminate Floor in short

Welcome to the variety of our Laminate Floor range: Here you will find just the laminate floor you are looking for. From our four series you can choose between various natural wood styles, ranging from rich shades of precious wood to trendy, light colours. We offer each series with different formats and designs that effectively and elegantly emphasise the style's effect. The intensity of the laminate floor's natural appeal is emphasised by the surface texture. Matching the various styles, we offer altogether nine different surface textures. The perfect texture for every style.

3

1 SERIES

FOUR STRONG SERIES

There is a difference whether the focus is on natural living or commercial applications: Do you need a floor that can withstand the most intense wear and tear? Or would you prefer a stylish interior design with a focus on the visual impact? With our floors, you can combine both aspects, as we offer our high-quality Laminate Floors in four different variants.

75

TRITTY 75

The "allrounder" for impressive style in all living areas. Fresh designs, a thin profile and easy installation make TRITTY 75 an option for modern and uncomplicated living.

[page 16](#)

90

Tritty 90

"The Trendy One" is a well-chosen name for this series. Its eight new styles stand for modern living with a fashionable style. The slightly modified construction provides this Laminate Floor series with a higher stability.

[page 26](#)

100

Tritty 100

The "tough one" is selected particularly often for use in areas with heavy wear and tear such as living rooms or hallways. At the same time, it convinces with its high durability combined with particularly natural, authentic styles and surface textures, as well as different formats.

[page 34](#)

250

Tritty 250

With our "Extra-Strong One" you do not have to make compromises when it comes to durability and stability in combination with a beautiful look. It is perfectly suitable for any type of commercial application, particularly if there is a very high grade of wear and tear. But it also shows its splendour in all areas of living where things are especially lively.

[page 70](#)

2 FORMATS/DESIGNS

IMPRESSIVE FORMATS

Besides the classical board formats and designs, we also offer unusual and trendy formats. Extra slim, extra long, extra wide. The perfect floor for every style of living, and perfect for realising your very individual vision of a beautiful home.

1. 3-Strip. Also known as Long-strip. Each floorboard is composed of three parallel strips.
Dimensions: 193 x 1282 mm
(7 19/32" x 50 15/32")

2. 2-Strip. The Clear One. With graphical pattern and a calmer overall appearance.
Dimensions: 193 x 1282 mm
(7 19/32" x 50 15/32")

3. Plank 1-Strip. The Classic One. Particularly popular because of its spacious visual impact.
Board dimensions: 193 x 1282 mm
(7 19/32" x 50 15/32")
(for TRITTY 250: 190 x 1282 mm / 7 15/32" x 50 15/32")

4. Loft 4V. The Slim One. The slim format and the bevelled edges on all four sides emphasise the plank character.
Dimensions: 135 x 1282 mm
(5 5/16" x 50 15/32")

5. Campus 4V. The Trendy One. A successful combination of classical board length and generous width, with bevelled edge on four sides.
Dimensions: 243 x 1282 mm
(9 9/16" x 50 15/32")

6. Gran Via 4V. The Gigantic One. Extraordinary appearance and distinctive plank character by bevelled edges on four sides.
Dimensions: 243 x 2200 mm
(9 9/16" x 86 5/8")

3 FINISHES

AUTHENTIC VERSATILITY

The perfect wood reproduction for laminate floors is easy for us – after all we are Germany's leading parquet manufacturer. Thanks to our experience in refining parquet surfaces we master the natural and vivid presentation of wood types better than any other company. For those looking for maximum authenticity we offer impressive possibilities. Our products range from smooth surfaces to sophisticated textures that are almost indistinguishable from real wood.

smooth matt
Smooth with no texture with natural matt look.

pores rustic
An expressive pore-textured surface with a distinctive look and feel. The combination of matt and shine effects gives the surface a very special patina.

pores
Slightly pore-textured and silky shine finish.

pores matt
Slightly pore-textured natural matt look.

textured
With the feel of real wood grain.

textured matt
Similar to real wood grain. The matt appearance underlines the natural look.

soft matt
Distinctive velvety soft surface. Natural and matt with a slight gloss effect in the texture.

authentic
Almost indistinguishable from real wood. Texture and style match perfectly. The gloss level emphasises the character and the natural look of the wood reproduction.

authentic matt
Almost indistinguishable from real wood. Texture and style match perfectly. The surface has a natural oil character. The Plank 1-Strip designs also have a slight shine effect in the pores.

Bevel on all sides
The edges are bevelled on both sides and ends – for an even more vivid impression. The expert calls this "long and short side bevelling".

*This is what makes our
Laminate Floors so special:
Authentic surfaces
Most beautiful styles*

The fine difference with huge effect

Wood has a wonderful feature: its feel. During many decades of wood processing we have gained the experience and feeling for authentic wood surfaces. This is why we offer our HARO Laminate Floors in nine surface variants. This way, you can experience laminate floors that are abound with naturalness. From silky smooth to deep brushed: In our product range you will find any surface texture to emphasise the chosen style and selected format in a natural way.

*This is what makes our
Laminate Floor so special:
The most simple installation
system*

Beautiful floors can
be so simple.

Life is complicated enough as it is. Luckily, our HARO Laminate Floors are easy to install. With our TopConnect installation system, we offer a technology that makes the installation of floors child's play. And you benefit from it, whether you let a craftsman install your floor or you do it yourself.

This is what makes our Laminate Floor so special: The World's Quietest Laminate Floor

For havens of relaxation and tranquility

A floor for relaxed living should radiate a warm atmosphere, and be durable and easy to maintain. When it is also as quiet as a whisper, it is perfectly suitable for all areas of your home where there is a lot of hustle and bustle. For this we have developed the unique ComforTec technology – it has proven to be the world's quietest laminate floor with a sound reduction of up to 60 percent. This makes HARO Laminate Floors with Silent CT the perfect floors for children's rooms, dining rooms and all other areas where life is pulsating. An intriguingly elegant and quiet floor. For more information, please take a look at our video at www.haro.com

TRITTY 75

75

The allrounder

Those who want to watch their budget, but do not want to do without quality and a large range, are on the right track with our TRITTY 75 Series. They are the perfect choice, not only for the first own home. Tough and available in many appealing styles, TRITTY 75 is your first choice when it comes to cosiness and a comfortable atmosphere of living.

The times of luxuriant, heavy furniture are long gone. Modern living means spaciousness. This way, the floor design can unfold its full visual effect and create **PURISTIC ROOMS** full of esprit.

TRITTY 100

100

*The tough one with the
huge choice*

Authentic solid wood appearance, sophisticated surface treatments, tough and durable in many living and working environments – this is our TRITTY 100 Series. Over 80 different products, 8 surface textures, 6 designs – no wish for the own home remains unfulfilled.

Gran Via 4V: the greatest for your home

Extra long, extra wide, particularly authentic: a genuine trendy product with a length of 2200 mm and a width of 243 mm. Our boards in Gran Via format create an amazing, spacious appearance. The characteristic look of Gran Via planks is emphasised by bevelled edges: the edges of the planks are chamfered on all four sides. This way, the plank character is emphasised in an impressively vivid way – just like real parquet.

Formats/Designs

Classic, trendy, extra wide or endlessly long: The designs of our TRITTY Laminate Floor Series offer numerous possibilities for individual style. With six different designs, you can choose between a variety that enables you to solve the most demanding designing tasks. Emphasise the room's appeal with a distinctive format, or highlight the texture by deliberately choosing floors with our without bevelled edges in order to make the room appeal even more authentic.

2-STRIP

75 100

Clarity through repeating patterns: Our 2-Strip design is an absolute evergreen - in a modern and new interpretation.

GRAN VIA 4V

100
Gran Via

Our long-plank design Gran Via 4 V broadens the horizon! With a length of 2200 mm (86 5/8") and a width of 243 mm (9 9/16"), this trend format creates a vivid plank character that makes rooms appear more spacious.

3-STRIP

75 100

This classic format is also known as "Longstrip". The three strips on every board create a pleasant vibrancy.

CAMPUS 4V

100
Campus

The Campus 4V board format is the fascinating combination of a spacious width of 243 mm (9 9/16") with the classical length of Plank 1-Strip of 1282 mm (50 15/32"). The bevelled edges on all four sides create a distinctive texture.

PLANK 1-STRIP

75 90 100 250

Plank 1-Strip provides a sensory ambience of spaciousness for many room settings. It can even make small rooms look much bigger.

LOFT 4V

100
Loft

Our slim Loft 4V board is a modern alternative to the classic Plank 1-Strip. With bevelled edges on all sides it sets accents without making the room appear restless.

Construction

CONSTRUCTION

BEAUTY OUTSIDE – QUALITY INSIDE

By now, HARO Laminate Floor has been a lasting success story for over 25 years. This is not only due to particularly authentic wood reproductions, but also because of the high quality and elaborate technical construction of our laminate floors.

Construction HARO TRITTY 75/90/100

- 1. Overlay with special impregnation (durable protective layer)
- 2. Decorative laminate with special impregnation
- 3. Special moisture control HDF-E1 coreboard aquaResist
- 4. Balancing laminate
- 5. Optionally available with integrated Silent Pro luxury insulation layer or with Silent CT technology (suitable for use with underfloor heating)

Construction HARO TRITTY 250

- 1. Overlay with special impregnation (durable protective layer)
- 2. Decorative laminate and sheets of kraft paper with special impregnation
- 3. Special moisture control HDF-E1 coreboard aquaResist
- 4. Several sheets of balancing laminate (moisture repellent)
- 5. Optionally available with integrated Silent Pro luxury insulation layer or with Silent CT technology (suitable for use with underfloor heating)

The overlay - the upper layer – is nearly as hard as a diamond and is hard to beat when it comes to durability, scratch resistance and strength.

The decorative layer out of lightfast special paper that was elaborately printed and soaked in melamine resin guarantees a high level of naturalness and bright colours.

The softwood coreboard ensures maximum dimensional stability and protects from moisture.

The balancing laminate on the back of the laminate floorboard balances out the tensions to the overlay. It prevents the boards from warping.

RECOMMENDED AREAS OF USE

The perfect series for every need

No matter which requirements a laminate floor has to fulfil: you will find the right laminate floor at HARO - in a quality that always meets the highest requirements. Here you can see at a glance which series best suits your needs.

TRITTY 75

For residential applications with high traffic and commercial applications with low traffic

TRITTY 90

For residential applications with high traffic and commercial applications with medium traffic

TRITTY 100

Installation

INSTALLATION

Angle in

Press down

Done

PROBABLY THE WORLD'S EASIEST INSTALLATION SYSTEM: TOP CONNECT

All those who have always wanted to install their own laminate floor but have never dared to can now get the real hands-on experience. With Top Connect, which is possibly the world's easiest installation system, the most beautiful floor designs can be created very simply and with an extraordinary stability. The boards

are angled in at the long sides and interlocked at the short sides with a small amount of pressure. The floor fits perfectly and is ready to be "lived on" immediately. And it is just as easy to deinstall when you move.

UNDERFLOOR HEATING

Our Laminate Floors are not only suitable for installation over underfloor heating, they are actually ideal for it. The technical construction of our floors ensures that warmth can easily get through. This way, you can save heating costs and enjoy a pleasantly regulated underfoot warmth during the heating period.

Care

COMFORTABLY EASY TO MAINTAIN

With a Laminate Floor you can reduce your maintenance efforts to a minimum. The durable surface is dirt-resistant and can be cleaned without hassle. Occasional damp wiping is sufficient. This way, you will be able to enjoy your floor for many years.

SUSTAINABLE CARE WITH DEPTH EFFECT

We have developed the innovative clean & green floor care series for the sustainable maintenance of our high-quality floors. It makes it easier than ever to clean and maintain our floors and it is completely safe and environmentally friendly. As a parquet manufacturer who has been producing in an environmentally friendly manner for generations, we know how to contribute to sustainability and the preservation of floors. For the long-term maintenance of value of your laminate floor, simply apply aqua shield undiluted.

clean & green®
Quick, easy and natural maintenance of all floors

For regular dry cleaning of the HARO floor coverings, we recommend vacuum cleaners from Kärcher. For regular damp cleaning of the HARO floor coverings, we recommend the flat wet-mops Ultramat Klassik, WischMat extra or Premium 5 from Vileda.

Insulation underlays

INSULATION UNDERLAYS

Pleasant for you when the sound level in the room is perceptibly minimized.

It will especially please your neighbours when your steps do not sound like thunder.

* Maximum individual values achieved in accordance with the EPLF Impact Hammer test (compared to reference floor)

** In accordance with DIN 140-8

COMFORT WITH EVERY STEP

An insulation underlay is generally recommended for all hard subfloors. It increases the floor's resilience, absorbs indoor and footfall sound and evens out minor irregularities of the subfloor.

Especially recommended: the factory-laminated insulation layer

- Excellent insulation against footfall and room sound
- The "forest floor effect" goes easy on joints and spine

- Insulation and installation in one single step
- Suitable for installation over underfloor heating
- Easy and clean to cut
- Environmentally safe disposal of cuttings in domestic waste

THE WORLD'S QUIETEST LAMINATE FLOOR

HARO TRITTY SILENT CT

Forget annoying stomping, heel clacking and other noises! Our new development Silent CT reduces room sound by a sensational 60% compared to standard floating laminate floors with insulation. This is the result of HARO's ComforTec innovation for a full glue-down installation with the subfloor. The result: You can walk with the pleasant acoustic of a fully glued-down floor.

- 60% quieter
- Can be installed without tools thanks to TopConnect
- Suitable for use with underfloor heating
- Warranty up to 25 years
- Available in over 80 styles in the TRITTY 75, TRITTY 90, TRITTY 100 and TRITTY 250 series.

Audibly quieter – as independent sound level tests confirm:

* Tested and certified by the state-certified testing centre: Entwicklungs- und Prüflabor Holztechnologie GmbH in Dresden

EPLF Impact Hammer

IHD Walking Lady

The Heimwerker-magazin (DIY magazine) Laminate floor test winner-"Very good"

HolzLand Award 2010 "Most innovative product for consumers"

Skirtings

SKIRTINGS – WITH SYSTEM

Whether matching the floor or contrasting - our range of skirtings provides the finishing touch for every taste. For more information about the sheer endless design possibilities contact your HARO dealer.

TRANSITION MOULDING – STYLISH TRANSITIONS FROM DISTINCTIVE TO SUBTLE

When installing different floors - a matching transition is an important factor, visually and haptically. For this, we offer transition mouldings in various colour designs. You can either set striking accents or create subtle transitions. Our transition mouldings can also achieve a skillful transition when the floors slightly differ in height.

Laminate floors on the wall

STYLISH WALL DESIGN

Builders with a sense for trends are increasingly choosing to design their walls, or parts of them, with elegant flooring elements. Our Laminate Floors can also be easily installed on the wall. For this, you will find wall installation systems in our accessories range that make the installation simple, creating homogeneous wall surfaces that impress.

Stair noses

STAIR NOSES— FOR A CLASSY WAY UP

For the design of your stairs in line with your laminate floor, you can find matching stair noses in our range of accessories. This way, you can elegantly connect two storeys with your favourite laminate floor to create a harmonious room ambience.

Quality Made in Germany

When you choose a Laminate Floor by HARO, you are making a good choice in many ways. As a renowned parquet manufacturer we create particularly natural and authentic styles. After all, it is the expertise from real wood that we bring into play.

Moreover, our Laminate Floors are made of 90% wood, which ensures a natural and healthy living environment. In addition, our production processes guarantee many years of quality living at the highest standard, as we leave nothing to chance when it comes to quality. Our experienced employees monitor product quality at every step of the manufacturing process. Above all, it is the durability of these high-tech floors that makes them so special. Despite the look and the texture, which are almost indistinguishable from real wood, our Laminate Floors are characterised by extreme durability and stability. For your home this means that you can rely on your floor in every respect.

Properties

PROPERTIES LAMINATE FLOOR

TOP LAYER WITH SPECIAL IMPREGNATION

One of the signs of the quality of our laminate floors is the high UV resistance. Due to their special impregnation the colours remain stable when exposed to sunlight and do not lose their brightness. Another advantage of the impregnation is the resistance to stains and scratches. The high durability of the top layer also prevents the surface from long-term damage from abrasion (for example by shifting chairs) or heat effects (for example by cigarette burns). In general, the HARO quality guidelines are specified so they exceed standards by far.

Outstanding visual impact

Excellent price/performance ratio

Dimensionally stable and perfect fit

Suitable for use with underfloor heating

Antistatic

Extremely scratch-resistant

Resistant to fading under UV light

Dirt-repellent and easy to maintain

Double moisture protection due to aquaTec system

Abrasion resistant

Hardly flammable (Cfl-S1), tested in acc. with DIN EN 13501-1

Impact and compression resistant

Resistant to cigarette burn marks

Optionally integrated sound insulation

MOISTURE PROTECTION

DOUBLE MOISTURE PROTECTION AQUATEC

Thanks to their well-balanced multilayer construction combined with the aquaTec system, HARO Laminate Floors remain stable and in top form at all times.

Laminate floor edge swelling with the effects of water

Certifications

The fact that quality is not just a promise can be seen in our products and their perfectly matching accessories, as well as in the numerous certificates that we have been awarded. They prove that we highly value transparency and diligence when it comes to a healthy living environment and our production processes.

Sustainability

Hamberger Flooring GmbH & Co. KG has been PEFC-certified since the beginning of 2004

Blue Angel eco label

The Blue Angel has proven the environmental compatibility of our products since 1992.

ISO 9001

Our quality management system has been certified in accordance with DIN EN ISO 9001:2008 since 1995. It secures workflows in the company and consequently contributes to maintaining a consistent product quality.

Made in Germany

Because our top quality floors are of the proverbial German high-precision workmanship, they come with the internationally renowned "Made in Germany" label.

ISO 14001

With the certification according to DIN EN ISO 14001:2004, we have committed ourselves to active environmental management since 1998.

CE

The CE label confirms that HARO Parquet and HARO Laminate Floors comply with all essential European safety and health directives.

ISO 50001

The ISO 50001 standard is aimed at supporting companies in establishing processes and systems necessary to reduce their energy consumption and increase energy efficiency.

EPLF

Hamberger Flooring GmbH & Co. KG is a founder member of the Association of European Producers of Laminate Flooring.

HARO Warranty

In addition to the statutory warranty terms, HARO also provides additional warranties for various product groups. Please note the respective warranty conditions.

Floor studio

Designing is fun and gives you the necessary certainty when choosing a floor: For the selection of the perfect Laminate Floor, our Floor Studio is the perfect online tool. With only a few clicks, you can select the desired styles and formats from our entire product range and experience their effect in different sample rooms. This makes your decision much easier – and your home much more beautiful.
